

# Watercolor Guide

CLOSE to my HEART®

Use this watercolor guide to replicate Close To My Heart's exclusive color palette with our watercolor paints (Z3132). Below each color swatch you will see a set of numbered paint circles, which indicate which paints to use, and how much of each is needed. The number inside the circle tells you which paint to use with numbers 1-36, which correspond with paints on our paint palette (number 1 in the top left corner; numbering continues left to right, top to bottom).

When a number is listed more than once, it means that more of that paint is used compared to the other colors in the mix. For example, Sea Glass shown below is made up of two parts paint 21, two parts paint 28, and one part paint 26.

Sea Glass
